

```
1  /* File Name: array1.c */
2
3  #include <stdio.h>
4
5  int main() {
6      int nums[] = {2,4,6,8,10};    //Makes 5 nums of type int.
7
8      printf("nums1 = %d\n", nums[0]);
9      printf("nums2 = %d\n", nums[1]);
10     printf("nums3 = %d\n", nums[2]);
11     printf("nums4 = %d\n", nums[3]);
12     printf("nums5 = %d\n", nums[4]);
13
14     return 0;
15 }
16
```
