

Computer Buying Project

Name: _____

Period: _____PC #: _____

Description: Choose one of the interviews of buying a new computer to use for this project. Your task is to give them three different options and then given them advice on which one to buy. You project will be presented to the as a short skit.

Computer Name		
Laptop or Desktop		
Processor (CPU)		
Operation System		
Memory (RAM)		
Hard Drive (storage)		
Optical Drive		
Monitor / Screen Size		
Video Card		
Sound Card		
Other Accessories		
Cost		

1. Of these three computers which one would you advise them to buy:
.....

2. For each of the components: explain what it is used for, what are the different options or sizes, and what component did you chose for the person buying the computer and why.

Processor
.....

Operation System
.....

Memory
.....

Hard Drive
.....

Optical Drive
.....

Monitor
.....

Video Card
.....

Sound Card
.....

Speakers
.
.
Keyboard
.
.
Mouse
.
.
Modem
.
.

3. Now you need to make a skit to show your understanding of this project. Be sure that your skit includes all of the work you have done above. Fill out this storyboard to help you plan out your skit.
